

# WIS Cloud Quick User Manual

1.1 Power up the device and make sure it is connected to the internet

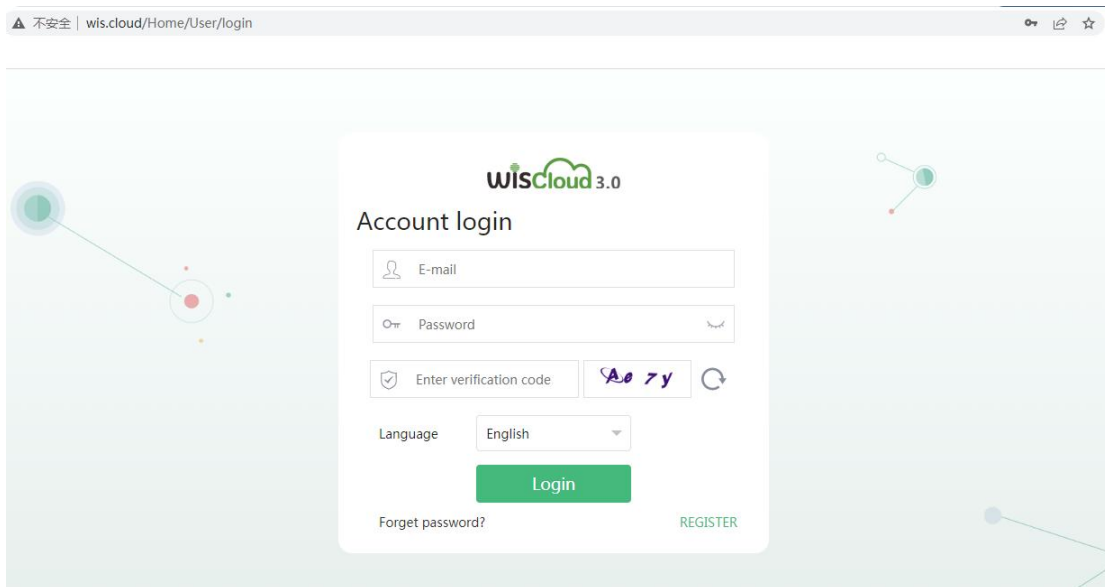

Tip: To obtain the IP address of the device, you can view it on the router interface or use the discover tool.

Mac Address	IP Address	Product Name	Firmware Version	Device Name
dc:36:43:3c:66:99	192.168.7.144	WCAP-Lite	1.0.7.20220618_alpha	WIS-AP

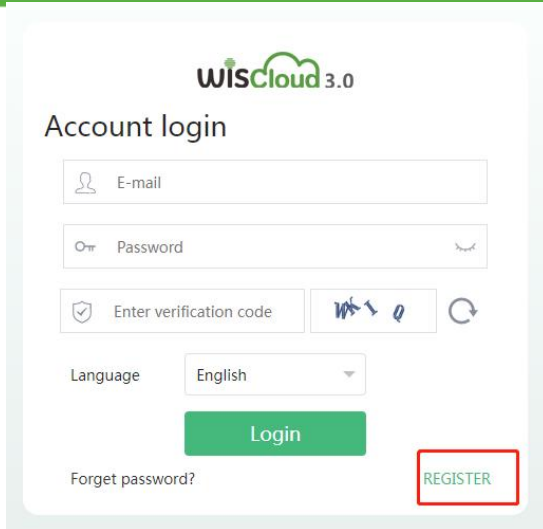

1.2 Go to WIS Cloud management system

Open the browser and enter <http://wis.cloud> to the login page

2.1 Enter the registration interface

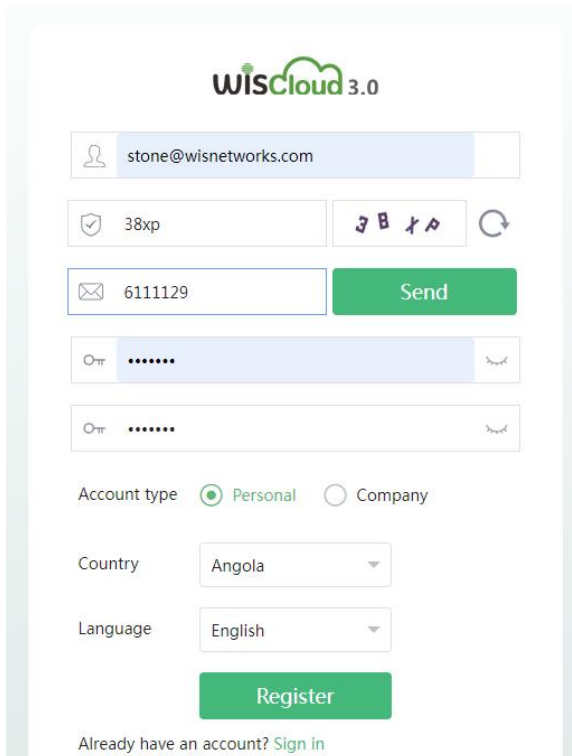

Click the REGISTER button to the registration interface

The image shows the 'Account login' interface for WISCloud 3.0. It features a white background with a light green border. At the top, the 'WISCloud 3.0' logo is displayed. Below the logo, the title 'Account login' is centered. The form includes several input fields: 'E-mail' with a person icon, 'Password' with a key icon and a toggle for visibility, and 'Enter verification code' with a checkmark icon and a refresh button. A 'Language' dropdown menu is set to 'English'. A green 'Login' button is positioned below the fields. At the bottom left, there is a link for 'Forgot password?'. At the bottom right, a red-bordered box highlights a 'REGISTER' button.

## 2.2 Registration interface

Enter the registration page, input the corresponding valid value to register

The image shows the 'Registration' interface for WISCloud 3.0. It features a white background with a light green border. At the top, the 'WISCloud 3.0' logo is displayed. Below the logo, the form includes several input fields: 'E-mail' with a person icon and the value 'stone@wisnetworks.com', 'Image verification code' with a checkmark icon and a refresh button, and 'Verification code' with an envelope icon and the value '6111129'. A green 'Send' button is positioned to the right of the verification code field. Below these fields are two password fields, both masked with dots. The 'Account type' section has two radio buttons: 'Personal' (selected) and 'Company'. The 'Country' dropdown menu is set to 'Angola' and the 'Language' dropdown menu is set to 'English'. A green 'Register' button is positioned below the form. At the bottom left, there is a link for 'Already have an account? Sign in'.

**E-mail:** Please enter your email address

**Image verification code:** Fill in the correct verification code according to the provided image

**Verification code:** Click Send and the verification code will be sent to the registered email

**Password:** You can enter a 6-32 digit custom password

**Confirm Password:** Enter the custom password again (the two passwords must be the same)

**Account Type:** Select the account type you want to use

**Country:** Select your current country

**Language:** Choose your language

**After successful registration, click Sign In to the login interface**

## 2.3 Login account

After successful registration, enter the login interface for login verification

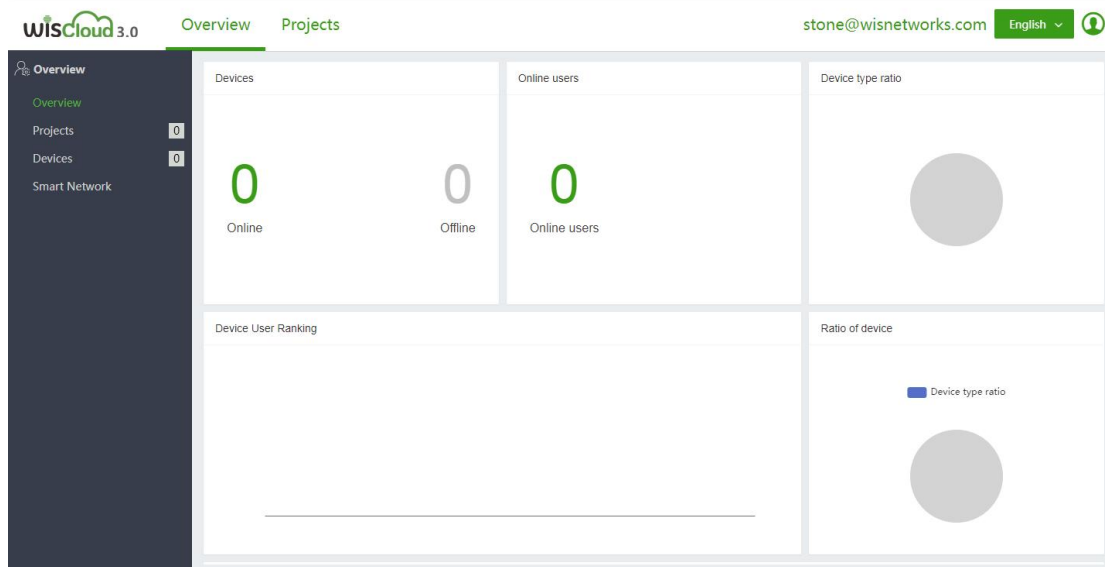

The image shows the 'Account login' interface for WISCloud 3.0. It features a header with the WISCloud 3.0 logo and the title 'Account login'. Below the title are four input fields: an email address field containing 'stone@wisnetworks.com', a password field with masked characters '.....', a CAPTCHA field with the image 'p6yy' and a refresh button, and a language dropdown menu set to 'English'. A prominent green 'Login' button is highlighted with a red border. At the bottom left, there is a link for 'Forget password?' and at the bottom right, a 'REGISTER' link.

E-Mail : Enter your registered email address

Password: Enter the password set during registration

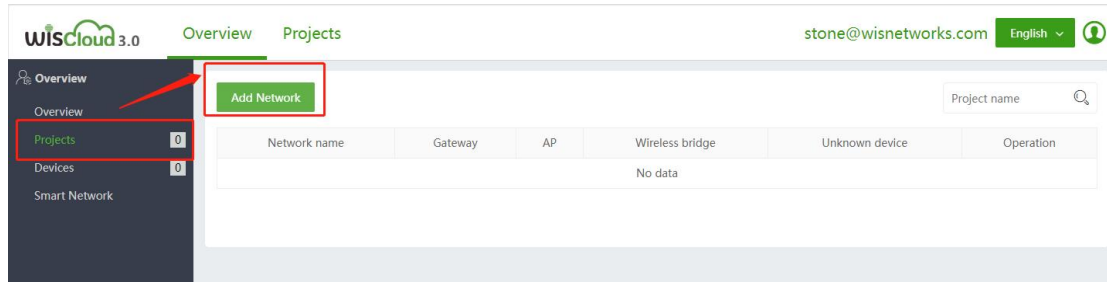

Image verification code: Enter the characters in the image to verify

After successful login, enter the system home page

## 3 Create a project name and add devices

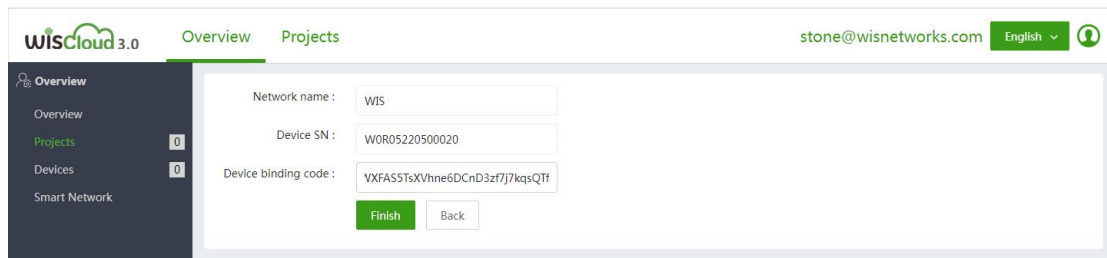

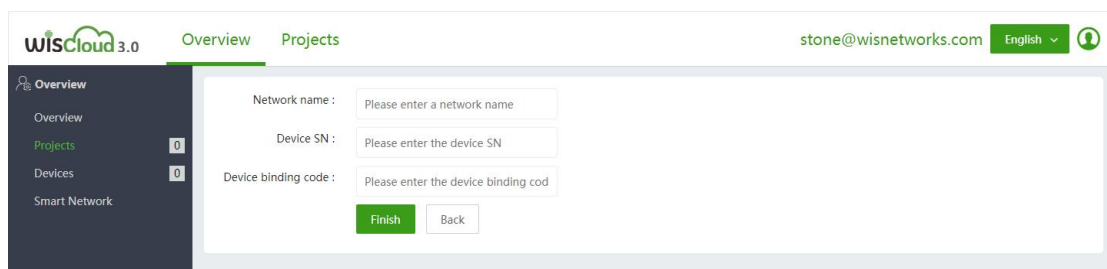

### 3.1 Click on Projects and go to Add Network

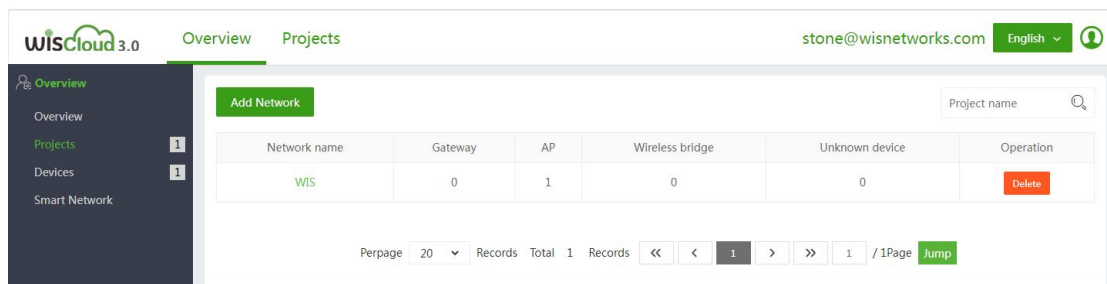

Network name: You can enter a custom network name

Device SN: Enter the Serial Number of the device you want to add

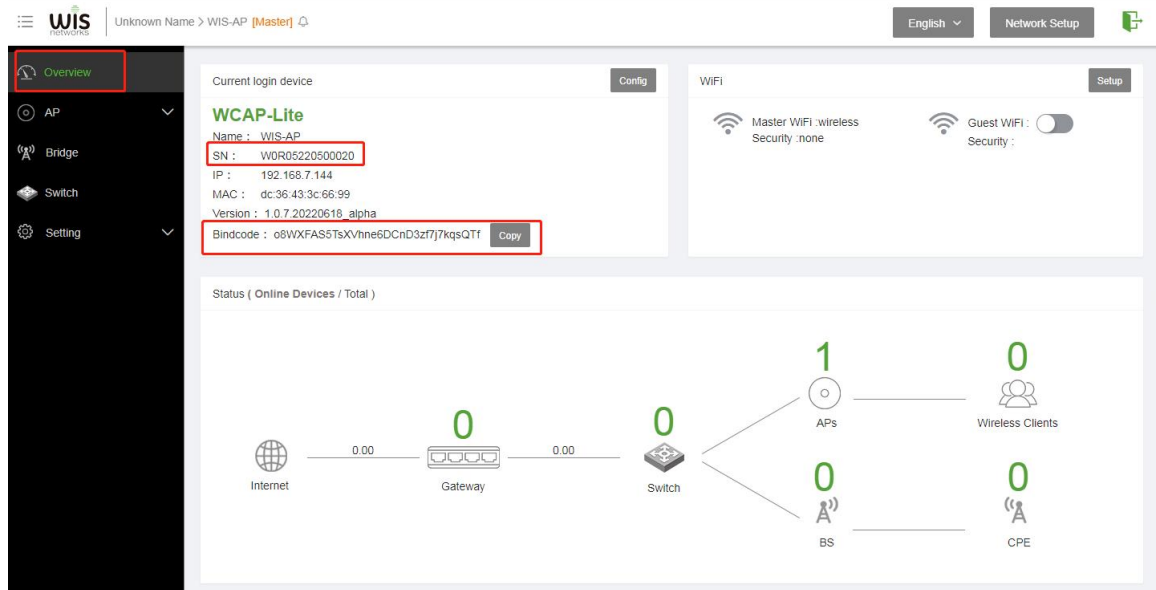

Device binding code: Enter the binding code of the device you want to add

3.2 Click Add to complete, refresh the page after 10 seconds, and the device is added.

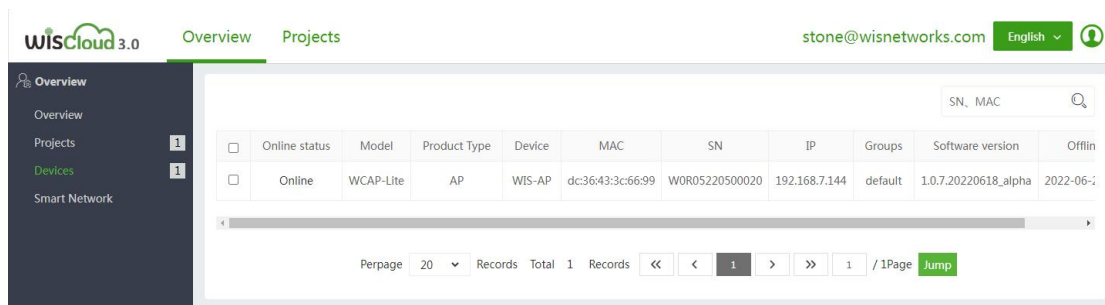

Note: Log in to the device to be added through the IP address to obtain the Device SN and Device binding code (refer to 1.1 to obtain the IP address)

### 3.3 Click the device list to view the device information

You can view the details of the device

### 3.4 Project Management

Click Projects to enter the AP list, you can view the corresponding device information
